TROY STREET DIRECTORY.

Giving the name of each street and showing what other streets and places run from it or across it, with the number at which they intersect.

From this list the location of any number on a street can be easily ascertained; as for instance, wishing to know at what part of Second street No. 168 comes, look at Second street and it is found that Liberty street crosses at 156, Washington street at 178, showing that 168 Second street would come half way between Liberty and Washington streets.

Ciphers are substituted for numbers on streets not fully numbered.

In the year 1852 the Cohoes Gas Light Company was organized with a capital of $50,000. It ranks among the earliest gas companies of the United States.

This Company organized an Electric Lighting Department in 1888, taking power from the Cohoes Company and operating water wheels under 90 feet head. Later a power section was added to this department. The City of Cohoes is well piped for gas, and electric lines for power and light cover the city. Consumers' rates are low and favorable contracts are made for power. The Company is progressive and offers favorable inducements to parties desiring to locate.

Come! Let us reason together

THE successful merchant or manufacturer stops to consider these things before placing his advertising

¶ What class of people use this publication?

¶ How long will it be kept for reference?

¶ Will those reading my ad remember it when in need of my goods, or will they have to hunt for it, and then not find it?

REMEMBER

MORE than one-half of the money spent for advertising yearly goes for ads which are used for kindling purposes within 48 hours after publication

---

IT IS NOT SO

WITH your Directory Ads, for they are bought to be used continuously throughout the entire year by the general public and business men alike

¶ Your ad is there on file, as in a ledger, indexed by the Classified Headings of the business in which you are engaged, and can be turned to immediately when wanted
